**HOT SPOT #3**

W 63rd St

## What is a Hot Spot?

A "HOT SPOT" is defined as "A location on an airport movement area with a history or potential risk of collision or runway incursion, and where heightened attention by pilots, drivers and aircraft re-position teams is necessary."

By identifying hot spots, it is easier for users of an airport to plan the safest possible path of movement in and around that airport. Planning is a crucial safety activity for airport users.
